Another day in or home Phoenix, Arizona. Atop A giant lizard. Bacteria And So much food. Its a big place. There has always been computer groups. Army camps. clubs. War games. Mining a Continent. Blessed with a metor shower for the god sent kings of eath to take in their name. Easy. The battle to stay in self-recognition. A independent person. with the ability to have an opinion. theyre's always something to do. No rush usually. Be a good man Finish grade school. Go to high school. Go to another state learn to speak a little different. Meet a nice Grain-e girl. take care of her. Ruin the relationship you are doomed to have with your favorite stalker your only friend because she is stuck in a police station with the most violent criminals society has to offer. Then you throw up every day. Jack off and love her for being a Nasy Spy Bitch. Who wants it. Death and suicide every where you almost feel sorry you ever led someone into a place like that throw on top of that the bullshit drama fauilures and Fucking engineering . Life isnt ever too boring going to court all the time keeping up with the Karate Freaks. Supposed Militia Watchmen Supposedly checking traps. in between The Freedom to be And Exist Agendas. Look at how much that girl loves you. She has a swimming pool and a water tank. Oh the castle at home our trenches in thew north our 50 states and 20 territories down south. Our states in Mexico. Looking for the African coast line trying to get a good look. Mabe its some heat i can sense from a super volcano. The sun is on fire. My state the valley of the sun. I look at my neighboor and i see Wal-mart. The atomic food source. Airplane with turbines and helium. Existence with a terrible black hole in the solar sytem that takes our life from us second after second. mabe if if werent so fucking big i might live a little longer. I have a pond i what im trying to understand right now it is a land mass with a pond in the middle of it. The land goes around it in A Circle. A hurricane would be terrible to walk into. A tornado would also be terrible to walk into. Beware of the Beasts Of America. Bears Cats And Wolf. They do Bite. The world has seen many tough times do not belive what every one tells you. The world is affected by Volcano. Migration of People. Times of darkness. The Common sense Rule. Is Law. Typhoons. Pulp products. Razors and wood chippers. Who can dream of the luxury of travel with so much to do. So little time. Run a political Campain For A Seat. Why every one is still alive. Is everyone migrating has the church migrated in secret as it always has to protect us as a family and fighting unit. Leaving us in duties Of the Salt And Gold Mines Of South africa And Espana. Our United states. To deliver the execution and slaughter of cows insemination and birth. The other states and there differences. New york city is a giant illusion and we have not much contact with. the Giant known as Los Angeles is there any one out there anyways other than the KKK parade. then Followers and TMZ. Selling the meat Rock organs Seeds of tobacco opium coca cola Live on television making a difference in society. What kind of idiot gets into politics now times. Who gives a crap about hooch.

The sun sets and it rises again. Everyone wakes up. The heat is on. Arizona a Territory once it had leaders and laws. Where our home. Was a place of production and mining. There is enough resources to gather and put together a platform for

production. Material. To gather stone. Pulverize. Stone. Hunt. Package. Food Source. For Women and plant was the only way to get away from the terrible work orders. The proud hold of our territory. Is guarding the perimeter and mining the area producing material for use in food making weapons. creating gold. White gold. To import Fire from the nearest Volcano. To trade our product for Fire to melt the powder from the broken stones and bacteria to get our product Gold, White gold, and have clean drinking water. Salt water and Hot Magma That later creates. A food source for cattle.

Busy days, Cold states, Politics and Computer Shows.

I feel sick.

Shrimp. God save us.
